

## **News Release**

## **DP Technology launches first wholly owned UK subsidiary -- ESPRIT CAM, Ltd.**

**Elstead, United Kingdom — 29 March 2019** — DP Technology Corp., a leading developer and supplier of computer-aided manufacturing (CAM) software, including its flagship product [ESPRIT®](#), is pleased to announce that it is enhancing its presence in the United Kingdom with the launch of its first wholly owned subsidiary in the country, ESPRIT CAM, Ltd. The new office will offer direct support to existing DP Technology resellers, technology partners and customers in the UK and Ireland. The local team comprises Chris Edwards and Fraser Lovatt, both seasoned professionals in the CAD/CAM industry with previous work experience at Delcam, Schlumberger Applicon and Autodesk. They have been recently joined by Paul Richards an experienced Applications and Training Engineer. The opening of DP Technology's new office directly reflects the increasing demand for the ESPRIT range of multi-axis machining software within the UK.

ESPRIT CAM Ltd., along with two UK ESPRIT resellers, CAM Supplies and CNC Solutions, welcomed current and future customers at the recent Southern Manufacturing and Electronics show in February. They explained the latest innovations in CAM software and discussed how ESPRIT's solutions can

streamline part programming, increase tool life and reduce cycle time. For additional information about ESPRIT, call 07976 527 034 or 07378 309 046, e-mail [esprit.europe@dpotechnology.com](mailto:esprit.europe@dpotechnology.com), or visit [www.espritam.eu](http://www.espritam.eu).
